hydrants at locations proposed by the city.

Dr. John E. Lee, mayor, suggested the possibility of renting radar equipment from the city of Madison if and when the Venice police department feels it is needed to aid in traffic control. The discussion came up when Third Ward Alderman Rennie J. Wince suggested the city look into the matter of buying radar equipment as an aid to the police department in traffic control work.

Chief Frank DeWitt said such equipment would be used only occasionally, and Mayor Lee said he believed the city's new system of stop streets would aid in traffic control. Mayor Lee said that to save the money a rental agreement with Madison could be effected.

To Burn School A permit was granted the Venice school board for permission to burn the old Lincoln school under supervision of the Venice fire department. The city attorney was instructed to draw up an agreement under which the school district will relieve the city of liability in the event of accident. School authorities have decided to burn the old structure because of the high cost of repairs.

William "Mike" Ebersold reported that he had met with officials of the Fox Scrap Iron and Salvage Co. about complaints of smoke emanating from the plant and was assured the burning of metal shavings in the preparation of averaging compound would be curtailed until new equipment can be installed in about six weeks. Ebersold said he learned the smoke came from a process of burning the oil off metal shavings which then are crushed into a compound.

The council approved a resolution authorizing a motor fuel tax project for improvement of Salvester street from College to Allen street, and Allen from Mercedia street to Salvester street. The street will have an eight-inch crushed stone base with concrete curbs and gutters. The resolution will be sent to the Illinois Highway department for approval.

A supplemental project for improvement of Salvester street from Allen street to Logan will be considered later. It will have to be financed with city funds because the street's right-of-way does not meet state specifications as a motor fuel tax project.

Break Out With Measles

Boys Who Set Fires in Venice to New Quarters

Two young Venice boys, 8 and 9 years old, were released from makeshift quarters in the Venice city hall Friday afternoon when the younger boy developed measles and authorities were afraid the other one might also become ill. The boys had been held since early last week for juvenile authorities after they admitted starting a series of fires in the city.

Police Chief Frank DeWitt said the youngster who was stricken with the measles was released to his parents after they appeared at police headquarters and promised to care for the boy. The other brother was placed in a foster home.

Two weeks ago the boys admitted to police that they had set nine fires in garages, sheds

and homes in North Venice area, most of them in the 1200 block of Logan street. The boys were released to their parents pending a hearing, but were ordered picked up again after they set fire to another residence at 1208 Logan avenue.

Since Madison county has no detention home, quarters were established in the basement of the city hall to keep the boys in custody pending action by juvenile authorities. When Probation Officer James Reidelberger called on the boys Friday, he discovered one of the brothers had a fever and a physician diagnosed the case as measles.

Reidelberger said a hearing will be held as soon as possible to see if the boys shall be placed in an institution or in foster homes.

Four Divorces In Circuit Court

Four divorce cases involving Quad-City area residents were on the docket last week in the circuit court.

Ada Marie Hudson of Granite City was granted a divorce in circuit court at Edwardsville Thursday afternoon from Everett E. Hudson, also of Granite City. The couple was married March 7, 1959, according to the complaint.

The decree grants the plaintiff title to real estate at 4168 Nameoki road and instructs Hudson to make monthly mortgage payments for the next six months unless Mrs. Hudson becomes employed. The decree also provides the plaintiff is to return all credit cards to the defendant.

A divorce decree was granted Loraine Marie Babbs against James L. Babbs. She was awarded custody of a child. The couple was married April 23, 1960, and separated June 2, 1964.

Patricia Ann McKelvey was granted a divorce from Edward L. McKelvey, both of Granite City. She was granted custody of a minor child and the defendant was ordered to pay \$74 per month support. They married Aug. 3, 1963, and separated Jan. 15, 1964, according to the complaint.

Betty Wilson was granted a divorce from Robert Wilson, awarded custody of four minor children and ordered \$30 per week support. The couple was married the second time on March 21, 1961, and separated July 15, 1964, according to the decree.

The license suspensions because of three traffic violations were listed for the following:

Price Seeks Ok In House for Hillside Drainage

Following Senate authorization of the hillside drainage flood protection project, Congressman Melvin Price (Dem., East St. Louis) requested House approval last week at Washington.

In a statement before a joint meeting of the House Public Works Subcommittee on Rivers and Harbors and Flood Control, Representative Price urged authorization of the project, pointing to the necessity, because of considerable land, crop and property damage from flood waters in flash floods in Madison and St. Clair counties in recent years. Price warned that "without the project, serious economic dislocation can be anticipated."

Citing the Chief of Engineers report recommending the hillside project, Price told the subcommittee "it carries an estimated \$6,180,000 federal cost for construction of interior flood control and drainage improvements as well as for a channel stabilization dam." The benefit-cost ratio is 1.8 to 1 for the interior improvements and 3.4 to 1 for the dam. Total estimated cost of the program is \$9,340,000.

Once Congress authorizes the project the next step is to secure funds for pre-construction planning and related work and actual construction.

6 Holes Shot in Auto Parked at Home in GC

Six bullet holes were shot in the 1964 auto of James C. Dorch about 5 a.m. Friday when the car was parked in the driveway at his home.

The damage was not discovered until 6 a.m. and reported to police. Dorch said he heard the shots at 5 a.m. and got up to investigate. "I looked out on the street and saw nothing so I went back to bed thinking it might have been a young punkster with fireworks," Dorch said.

Dorch, a member of the International Sheetmetal Workers Union, said he recently was discharged by a St. Louis refrigeration firm following a wildcat strike, but did not know if there was any connection with the shooting incident.

He said two windows on the driver side of the car were shot out with three bullets. There were two holes in the hood and one bullet hole in the grille.

Truck-Auto Accident

An auto and a truck were involved in an accident about 10:10 a.m. Friday on 20th street at State street. Police said Thomas Williams of Jerseyville was backing his truck and struck the front of an auto driven by Everett Stevens of East St. Louis. No one was hurt and no charges were filed.

The rains also delayed outside operations Saturday morning.

County's Vote Totals are Sent To Springfield

County precinct vote figures of the 1964 gubernatorial and 1962 state treasurer races were forwarded last week to Springfield by County Clerk Eulalia Holtz to aid in solving the state's reapportionment problem.

The information was sent to State Treasurer William J. Scott, who informed Miss Holtz in a telegram that he was meeting with Atty. Gen. William G. Clark to discuss reapportionment of the Illinois House and Senate.

At Scott's request, Miss Holtz supplied by mail the precinct vote figures for all 24 townships in the county for the governor in 1964 and the state treasurer race in 1962.

A bi-partisan panel of appointment for the Illinois House is to be worked out by Democrats and Republicans who are naming 10 party members each to a committee. The state Supreme Court has named three law school deans to assist in compiling the lists. The deadline for both party groups to submit a constitutionally acceptable map of senatorial districts has been set for Aug. 15.

Collision in Venice

An auto driven by Otis Green of 911 Webster street, Madison, was damaged on the right side Thursday in a collision on Broadway at the Tri-City Grocery parking lot. Police said Green's car was struck by an auto driven by Loretta M. Warren of 2303 Orick street, Venice, who was headed west on Broadway and was making a left turn into the parking lot when the collision occurred. There was no damage to the Warren car.

Chouteau Supervisor Checking Dump Fire

Joseph Troeckler, supervisor of Chouteau township, said Friday he is investigating the cause of a fire at the Chouteau Island dumping grounds on Express 66-40 that called out Mitchell firemen for more than an hour last week and caused an odor that has resulted in numerous complaints to his office.

Troeckler said the fire, which occurred at a time when no one was at the dump, resulted in a heavy black smoke and that firemen reported to him the stench of burning garbage was terrifically bad. The fire endangered several bulldozers and a crane and firemen spent considerable time locating operators who could move the equipment.

The supervisor has been conducting a campaign against the Chouteau Island dumping grounds on the contention that it is a health hazard.

The owners of the dump were fined recently in circuit court at Edwardsville on a state charge of failing to cover garbage and refuse at night. The dump also was shut down on a zoning violation charge, but has continued operation, according to Troeckler.

Dog from Kansas Found in GC

A friendly, brindle-colored female dog, wearing a studded leather collar marked "Gordon Yotter, Eudora, Kan.," was turned over Friday morning to Granite City Humane Officer Albert Young, who is seeking information on the whereabouts of its owner.

Young speculated the dog may belong to someone vacationing in the area, or possibly was stolen in Kansas and released near here. Anyone with information is asked to call the city hall, TR 7-6111.

The humane officer said the animal is quite large and is fairly young. He added that it has a short haired coat with black stripes on the back and resembles a "coon" con hond.

The dog was found Thursday in Wilson Park by Danny Conway, 12 son of Mr. and Mrs. J. C. Conway, 2551 State street, who took the animal home and kept it overnight. Eudora is a community of about 920 population in east-central Kansas.

Given emergency treatment for contusions and abrasions to his left ankle was John Dant, Mrs. Francis Dant, 1665 Fourth street, Madison, who caught his foot in bicycle spokes.

Mrs. Bess Spring, 82, of Alta Vista, Va., was given emergency treatment for a fracture to her right wrist suffered in a fall on a flight of steps at the home of a niece, Mrs. Virginia Henry, 2736 Grand avenue.

Released from the hospital Thursday was Billie Dollis, 7, son of Mr. and Mrs. Roger Brewer, 1027 Madison avenue, who underwent amputation of the tip of the middle finger of his right hand which he had caught in a bicycle chain.

Area Birthrate Up Slightly For Year; 92 Babies in July

The Quad-Cities birthrate and deathrate for the seven-month period this year showed increases over the same period of 1964, according to vital statistics compiled by Granite City Clerk Homer "Cal" Pendleton.

The July statistics listed 92 births to increase the year's total to 668, compared to 604 in 1964, while there were 118 deaths in July.

The clerk also recorded 35 deaths last month for the Quad-Cities, to increase the total for the year to 237. In 1964, there also were 35 deaths in July and the seven-month total was 234.

The July statistics of 92 births and 35 deaths compare to June figures of 88 births and 36 deaths.

A breakdown of vital statistics for the Quad-Cities this year follows, with the birth figure listed first:

January—96 and 45, February—85 and 37, March—96 and 34, April—88 and 31, May—63 and 29, June—86 and 46, and July—92 and 35.

Meter Fees Continue Drop Below Last Year's Income

Parking meter fees in Granite City during July dropped below those of July last year, following a pattern set last January and continuing without exception during the current year thus far. Fines for meter violations were higher last month, but the overall total of both fees and fines was \$23 less than the total for July 1964.

Records of meter fees and fines collections in the office of Comptroller John Dehner show that income from fees during July amounted to \$2727, while fines amounted to \$245. In July a year ago, fee collections were \$2861 and fines \$189. This year's total was \$2972, compared to \$3050 a year ago.

July's total collections increased to \$21,329 the total amount of fee and fine collections for this year, compared to \$22,314 for the same period a year ago, or \$1015 less than the income for the seven-month period of 1964. Meters were in operation 26 days during July. On the basis of total collections, daily average income was \$114.

While fines assessed for meter violations have been greater in several cases, there has not been a month so far this year in which fee income has been equal to or exceeded that of the same month of last year. The overall total of every month has been smaller than that of a year ago.

In January meter collections were \$2175 compared to \$2276 the same month in 1964. In February they were \$2635 compared to \$2681 the previous year, and in March were \$3143 compared to \$3559 the previous year. April income this year from fees was \$2736 compared to \$2835 a year ago.

May fee collections this year were \$2828 while a year ago they were \$3030, and in June they were \$3543 compared to \$3644 the previous year.

Total collections, including both fees and fines, during the current year as compared to last year were \$2235 this year and \$2363 a year ago; \$2791 and \$2844; \$3361 and \$3842; \$2879 and \$3082; \$3112 and \$3229; \$3887 and \$3934, and last month, \$2972 and \$3050.

The results from last Tuesday's Opportunity Month turns in have been tabulated and here's the way the top five clubs finished and the money won:

First—St. Joseph's Parents and Friends — \$200.00

Second—DUV Tent 90 — 100.00

Third—DUV District 8 — 60.00

Fourth—New House Chapter, O.E.S. — 30.00

Fifth—Shore 4 H Club — 10.00

Congratulations to these groups and to their chairmen: Genevieve Brasley, Augusta Munsterman, Vi Kassabaum, Dorothy Edwards and Ruth Braye.

Now, we clear the decks for an exciting stretch drive with the final TURN-IN slated for September 21 and the closeness of it makes disappointment among the groups that do not win the First Grand Cash Award of \$500 and the First Grand Merchandise Award of a new 1966 Buick Wildcat. However, there will be another \$500 in Grand Cash Award money distributed plus some other exceptional merchandise awards including a 1966 Zenith Color TV Set, Florida vacations and a set of the World Book Encyclopedia and any of these things, as they say, "aim to be snatched at."

Another strong dark horse has emerged in the past couple of weeks, judging strictly from coupons, turn-ins, and that is St. Elizabeth Altar Society. So, at the moment, it looks like an extremely tight four-way battle among Madison Band, Sequoia Indians, St. Margaret Mary and St. Elizabeth, though anything can happen in these final seven weeks.

From here on out we'll try to give you the standings of the top five organizations each week, though they'll be based on coupon turn-ins which could be changed by the final tabulation of actual proofs of purchase, label turn-ins, etc. However, it will give you a pretty good idea of how you're doing in the race for the new Buick and the \$500.

Talk about label turn-ins, the only label involved in the Derby is Krey most products. Get the word on their Fall Fashion Sweepstakes—you might win a mink jacket!

Thousands of coupons available for your clubs, so don't let lack of distribution keep you from the top money call Derby Director Ann at Glenview 1-8600.

Here is the new deal on the Merle Norman Cosmetics Parties—ONE THOUSAND POINTS! The party must be worth a minimum of \$25.00 to qualify for the big one thousand points—call Merle Norman's Ruth Elmore now and arrange for one.

Many points available, too, at Kline's Decorators' Side-walk Sale next Saturday—reduced prices on many gift items.

A special Hotter party is being planned for the clubs at Friedman Furniture—this will be a "no purchase necessary" type of thing and, besides points, everyone gets a free gift just for attending!

Let us not forget the special WGNU Club Derby stamps available at Granite City Trust and Savings Bank, Save-Mor Supermarket, Maryland Supermarket, Lazenby Photographers, Rose Bowl Restaurant, Bolland and Sun and Sun Beach and Park. These are worth 1c apiece in redemption value plus Derby points! So much extra money for your club!

Kirchner Wins 3rd Regional

Bill "Satch" Page came up with two sharp mound performances last night to lead Kirchner Hardware to its third consecutive Class B regional title.

The four-team tournament was held on the Wilson Park field, with Kirchner defeating the Ravens 2-1 in the title game to earn a trip to the state meet at Urbana during the Labor Day weekend.

Kirchner had won its first game 2-0 over the A-C Contractors, who are currently leading the Classic League, as Page finished a two-hitter.

Bob Ketter's double and an error brought in Kirchner's first run in the bottom of the first. A single by George Sykes and Jim Vincent's two-bagger resulted in the winners' only run in the second. Ray Hoffman, who terminated only four softies, was the tough-luck loser for the Contractors.

Semi-Final Play
In the other semi-final contest, the Ravens came up with four runs in the last of the sixth and defeated Granite City Steel Credit Union 4-1.

Credit Union drew first blood in the top of the fourth inning. Don Crabtree reached first base on an error, stole second and advanced to third on a passed ball. A sacrifice fly by Bill Crabtree followed, bringing in Credit Union's only run.

The Ravens countered with four markers in the last of the sixth. Three errors, a double by

Jim Ripsey and Charles Lipardus' triple accounted for the winning team's scoring.

Bob Ketter took the win on a four-hitter. Jack James, who gave up a like number of hits, was the loser.

Championship Game

In the championship game, Kirchner slipped by the Ravens 1-0 with Page coming on in relief to save the game. Page relieved starting pitcher Jerry Volski in the third after the latter walked two men in that inning with one out.

The Ravens scored first in the top of the second when George Sykes' error, pilfered second and crossed the plate on a throwing miscue.

Kirchner loaded the bases with only one out in the bottom of the second as Sykes singled. Dave Carnaghi reached base on an error and Champ Summers bunted for a single.

Harold Tanksley hit a hard liner to center, but Grote made a sensational error, pilfered catch at the base of the screen. He then scrambled to his feet and threw out Carnaghi trying to advance from second to third, with Sykes scoring. Kirchner's first run before the final out was made.

Singles by Sykes and Bob Page and a sacrifice fly by Carnaghi brought in the winning marker in the fourth. Page allowed the Ravens only two hits during his relief role.

CLASS B REGIONAL CHAMPS, Kirchner Hardware, for the third year in a row. Kneeling, left to right, are Harold Tanksley, Larry Williams, Bob Patrick (manager), Chris Page (bat boy), Bob Page, Terry Page (bat boy) and Bob Ketter; standing, Champ Summers, Charles Stephens, Dave Carnaghi, Dan Gra-ville, George Sykes, Jim Vincent and Bill "Satch" Page.

Rozycki Team Clinches Blue Championship

Rozycki clinched first place in the Blue Division, while Polish Hall and Club Delmar remained in contention for the Red Division championship with victories Thursday night in Open League slow-pitch softball at Wilson Park.

Clark Clark hurled an eight-inning shutout as Rozycki wrapped up the Blue Division crown with a 5-0 win over the Eagles. Punt Van Ness trapped an inside-the-park home run in the second to start the scoring for the winners. The Blue Division was a 6-2 record with one game remaining in the regular-season schedule.

Polish Hall downed the Falcons 8-4. The winners picked up four markers in the first; however, the Falcons came back with four in the third to tie the score.

Polish Hall picked up three runs in the fourth to again take the lead, with Frank Schmitt and Sam George hitting back-to-back home runs in that inning. The winning team retained the lead for the rest of the game, getting two additional tallies in the seventh. Ray Jones came up with four hits in as many plate appearances to aid the Polish Hall cause.

Club Delmar remained a game and a half out of first place in the Red Division by registering a 2-0 forfeit win over Summit. Polish Hall leads the division with a 10-1 mark and has one game remaining on its schedule.

If Club Delmar posts a win in its next contest it will have an opportunity to tie the league leaders when the two teams meet on Aug. 16. Such a tie would necessitate a playoff game for the league championship.

The Ravens, Rozycki and Falstaffs each gained victories in Illinois Amateur Softball Association regional slow-pitch games Sunday afternoon at Wilson Park.

In the first contest, the Ravens downed A. O. Smith No. 1 3-0 as the winning team jumped to a 9-0 lead before its opponent could enter the scoring column with its only three markers in the top of the sixth.

Jim Ripsey supplied the long ball for the Ravens as it clubbed a pair of homers to go along with a single in three at-bats. Carl Haug was on base three times in as many trips to the plate for the winners with two singles and a walk. Jay Corbett was the winning batter.

In a low-scoring game, Rozycki came out on top against the Blue Furnace Flyers 3-2. Third baseman Clark won a five-hitter, Carl Alford and Frank Van Ness had

Suit for \$75,000 Due to Accident

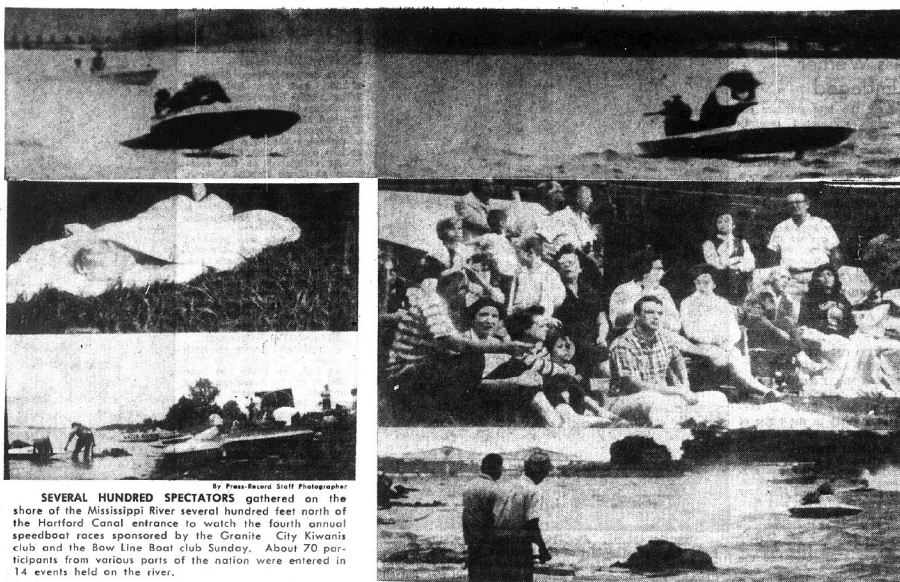

Harry F. Boyd, 55, of 2146 Delmar avenue, is named defendant in a \$75,000 law suit filed in circuit court at Edwardsville by Mrs. Beulah Goodman, 2163 Robert street, in behalf of her son, James Goodman, 18, who was injured in a motorcycle-auto accident near Granite City on July 7.

The complaint charges Boyd was negligent in driving his car which struck the rear of a motorcycle ridden by young Goodman on Route 3 about four miles north of Granite City where the accident occurred.

The motorcycle and auto were headed north when the collision occurred, according to the complaint.

The bill, which asks a jury trial, charges the boy received permanent injuries.

Police reports at the time of the accident showed another fault, Eric Archer, 17, of 2430 Grand avenue, was riding on the motorcycle with Goodman, and jumped from the motorcycle when he saw the accident was about to occur. He was knocked unconscious and suffered knee, thigh and hip injuries.

SEVERAL HUNDRED SPECTATORS gathered on the shore of the Mississippi River several hundred feet north of the Harford Canal entrance to watch the fourth annual speedboat races sponsored by the Granite City Kiwanis club and the Bow Line Boat club Sunday. About 70 participants from various parts of the nation were entered in 14 events held on the river.

TOP PHOTOGRAPH shows two speedsters entered in one of the 14 racing events held Sunday at the Bow Line Boat club's river frontage area. The middle left photo shows 18-month-old John Phillip Stanton, Ill., 2421 Adams street, who slept soundly despite the noisy roar of the outboard motors. Middle right: part of the crowd which lined the river shore, bringing their own chairs as well as blankets. There was a chilling breeze from across the water, with the feeling of rain in the offing.

Lower left: "Pitmen" wading out in river, making their boat ready for the next speed race. The starting clock is visible as well as the Illinois Conservation Dept. water patrol boat, which was on duty. The photo at lower right shows two maintenance men waiting for their speedster to finish the race. In the distant background is the new Chain of Rocks Canal bridge, which is nearing completion.

for issues in dispute—grievance procedure, craft reorganization and apprentice training, and wages.

Commenting on the grievance procedure, Austin said: "With most companies our present grievance procedure could provide a sensible and orderly means for settlement. But not with Union Starach."

"This strike is not an overt-night occurrence. It has been building up for the past two years which was about the time the company changed manage-

ment in the personnel department."

Changing Policies
"There has been a serious deterioration of labor relationship since this time. The new management has constantly changed practices and policies that have worked in good faith for years. The company denies our request for keeping these policies and practices, and we have no way to enforce our position."

"On the grievance procedure, the company knows that all they have to do is deny the union's request in each given step and it will eventually end up in the arbitration stage and then we have a choice of either arbitrating or withdrawing the grievance."

"Through this they have gotten away from the original intent of certain parts of our contract and also at times depleted our operating funds."

Union's Experiences
"The following are some of the many bad experiences we have had with management on grievances."

"1. A company official admitted that the company weighed grievances more on the monies involved than the merits."

"2. In the past two years we have caught supervisors in false statements. What happens to them? Some get promoted."

"3. We have had around 135 grievances filed from m430 persons since last Aug. 24."

"4. We have had a foreman tell us on a grievance that he was wrong, but did not have the authority to say it. At the same time we were being told from his superiors that he did have."

"5. On one grievance, the company and union had opposite interpretations on a word that made the difference as to which side was right. A company official obtained a Webster's dictionary and it verified that union's interpretation. At this time, the company official said, 'fore they started searching for it,' and they still denied the grievance."

"These are just some of the bad experiences that we have had with this company. What if all companies took this unreasonable attitude. How long would their union members take it before they started searching for a way to make the company to live up to the intent of negotiations?"

Crafts and Wages
On the craft reorganization Austin said: "This is simple to answer. The union is fighting to keep jobs which have been at Union Starach since its beginning. It is companies' trend throughout this country to increase unemployment through automation and tearing up job classifications."

MRS. LARRY ASHLEY, a bride of Saturday, before her marriage at the Methodist Church in Caseyville, she was Martha Kathleen Sinclair, a daughter of Mr. and Mrs. Orville Sinclair of Caseyville.

Miss Sinclair, Lawrence Ashley Wed in Caseyville

Sprays of pom-poms on the altar with lighted candles in candelabra provided the setting for the marriage of Miss Martha Kathleen Sinclair and Lawrence Ashley, Saturday evening at eight o'clock at the Caseyville Methodist Church.

The bride's parents are Mr. and Mrs. Orville Sinclair, 443 Sixth street, Caseyville. Mr. Ashley is the son of Mrs. Chester Ashley, 1737 Third street, Madison.

Rev. Harry Colquhoun, pastor of the First United Presbyterian Church of Madison, officiated at the double ring ceremony.

Kenneth MacClatchey, organist, accompanied Miss Cynthia Zahn, soprano, as she sang "O Lord, Edward Ashley, a brother of the groom, sang "The Wedding Prayer" as the couple knelt at the altar and "Whither Thou Goest" prior to the ceremony.

The bride was given in marriage by her father, Mr. Orville Sinclair. She chose a pure white organza gown fashioned with batteau neckline and caplet sleeves, etched with Venice lace around the high rise bodice and cape. Lace motifs accented the long, dome-shaped skirt and handkerchief train. A forward rose held the tiered veil of bridal illusion.

The bridal bouquet was an arrangement of stephanotis, ivy, gladioli of the valley and white mums centered with a corsage which was later worn with the bride's going-away dress.

Miss Nancy Sinclair, sister of the bride, as maid of honor, and Mrs. Jerry Vallina and Mrs. Charles Hamilton, bridesmaids, wore gowns of maize peau de soie. The sheaths were full length and of elbow-length sleeves. A bow tuck at each waist accented the separate panel back.

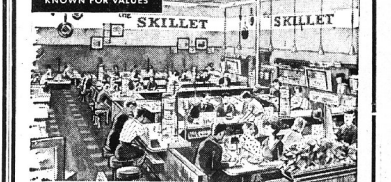

They wore veiled hair barettes with center roses to match the bridesmaids' bouquets. If daisies were carried by the attendants.

Tina Schindewolf and Mark Schindewolf, the groom's godsons, were flower girl and ring bearer. Tina wore a floor-length dress of white organza with a maize underskirt. A yellow sash accented the waistline. She carried a basket of rose petals.

A rehearsal dinner was given Friday evening by the bridegroom's mother at her home in Madison.

The young couple will be at home at 1637 Sixth street, Madison, upon returning from the wedding trip to the Ozarks.

Census Bureau to Count Color TV Sets in Area

Families in this area will be asked about ownership of television sets during the August current survey by the Bureau of the Census, according to Director Theodore P. Olson of the bureau's regional office in Chicago. The Advertising Research Foundation and the Federal Communications Commission have requested the TV information in addition to the regular inquiries on employment and unemployment asked by the bureau each month to furnish information for the U. S. Department of Labor's Bureau of Labor Statistics. The TV questions will be aimed at determining:

1. If the sample family owns a television set.
2. Number of sets in the household.
3. If the household has color TV.
4. If it has ultra high frequency TV (Channels 14 to 83) and the type of UHF receiver if there is one.

A similar survey done in May 1964, showed that 93% of U. S. households had television sets at that time. No questions were asked about color or UHF television in the 1964 survey. The information will be collected during the work week starting Aug. 15 from scientifically selected sample households in this area as well as other sample areas throughout the U. S.

An Unbeatable Salad Is Right on the Shelf

You just can't beat a salad in the summertime! It's a delight to the eye, its texture and flavor are a stimulus to heat-jaded appetites.

When the salad is a molded one, these characteristics are more pronounced. And with canned condensed soups molded salads are so easy and quick to make. Canned condensed tomato soup, all ready spiced to perfection as it comes from the can, is the main ingredient in this Red and White Ribbon Salad... and it's a complete meal.

Heap the potato chips into a bowl and pour the iced tea. With a menu like this one, no one will notice the heat.

SIU Budget

(Continued from Page 1)

more than 100 acres for parking and 255 acres for academic buildings. The land use plan for the new 2600-acre campus reserves 462 acres for future housing, compared with 310 acres in the master plan approved by the board of trustees before campus construction started. The first two buildings at Southwest are expected to be used for classes this fall and three other buildings are under construction. Under the new plan, university architects said, there will be space for 550 automobiles eventually. The 255 acres for academic buildings is located in the center of the campus, and parking lot space is reserved on the east and west sides of this core area, in which no vehicles but service trucks will be permitted.

Minor Changes Made
The revised land use plan also provides a pedestrian and bicycle path all the way from the central core of buildings to exist on the east and west side of the campus. Other minor changes in acreage allocations are provided in the new plan, but it retains space reservations for research or professional schools, community center, continuation center, recreation and outdoor education, and an arboretum on the north side of the campus.

Trustees also authorized university administrators to contract with the city of Edwardsville for domestic water for the new campus. The board accepted the city's base price of 22 cents per 1000 gallons and agreed to construct a water line between the campus and the city's pumping station.

A well which the university has tapped on the campus site will be used to maintain the water level of a utility reservoir which will be an integral part of the campus cooling system. The university began construction of the well and laid plans for a water treatment plant when previous negotiations with the city on the water issue were broken off.

The city of Edwardsville's latest proposal on supplying water "would require much less than has been projected for the construction of a water treatment system," the board was told. The city's original bid for a base price of 29 cents per 1000 gallons.

In other action, the board voted to seek private development and financing for dormitory facilities on the new campus. The university will be empowered to discuss with private developers the possibility of their building residential facilities for students and staff in areas reserved for housing construction on the campus and leasing them to the university.

Thirty-three appointments to the continuing faculty and staff of both the Carbondale and Southwest campuses were approved by the board as preparations continued for fall term opening of new classroom buildings on both campuses. The board also confirmed appointments scheduled for consideration at the June meeting, which was not held. There were 49 appointments on the June list. The two lists added the names of eight professors, 20 associate professors and 34 assistant professors to the faculty roster, as replacements for resignation vacancies and to initiate instruction in new buildings. Term appointments on the two lists, for periods of one year or less, totaled 143.

Professors joining the staff during the 1965-66 school year include Robert G. Andree in the education division; William T. Greenwood as professor of management; Samuel Heavner as professor of art and supervisor of university galleries.

Mr. McGraw's Hill as head of the Bookbinding Center; Leonard C. Jones in the Science and Technology division; William R. McKenzie as professor of administration and supervision; Keith R. St. Onge in the Fine Arts division; and Francis T. Villanov in the Education division.

There were 117 appointments to the staff of the Breckinridge Job Corps Training center, operated by the university at Camp Breckinridge, Ill., under contract with the federal office of Economic Opportunity.

General Steel Industries' Sales Up in 2nd Quarter

General Steel Industries, Inc., reported consolidated net sales of \$24,607,983 in the three months ended June 30, while earnings for the second quarter were \$318,227, after taxes equal to 43 cents per share, W. Ashley Gray, Jr., GSI president, announced here Friday. This compares with sales of \$16,503,263 and earnings of 31 cents per share in the first quarter of 1965.

For the first six months of 1965, GSI reports total sales of \$41,111,248, and earnings of 77 cents per share, compared with \$33,040,360 or earnings of \$1.34 per share in the comparable period last year.

Gary said lower sales and earnings for the first six months of 1965 were caused primarily by the fact that throughout the first half of 1964 St. Louis Car Division was producing rapid transit cars for the New York City Transit Authority at a very high level, whereas this year regular deliveries of Port of New York Authority Transit Authority rapid transit cars did not begin until late in the second quarter.

In addition, he said, the full range of operating economies inherent in the recent consolidation of all castings operation in the Granite City Castings Division plant was not entirely realized. Significant progress was made toward this end in the second quarter and further improvement at the Casting Division is expected in the second half, he reported.

Record Peacetime Production Productivity at GSI's Castings Division is at a record peacetime level, Gray said, and continuing orders for industrial and railroad products assure an excellent rate of operations well into 1966.

SIU Trustee Board Affirms 'Open Door' Enrollment

With unanticipated numbers of applicants seeking admission, Southern Illinois University officials, meeting Thursday at the new Northwestern Campus, affirmed the school's historic open door policy and will admit qualified full term students on an emergency basis to the limit of faculty, staff and building capacities.

The university board of trustees, with Guy Hitt of Benton as new member succeeding former chairman John Page Whom of Centralia, reached the decision after hearing University President Delye W. Morris report on the number of admission requests.

"Increases above the estimates on which the budget was based are now expected in all categories," Morris said, "with the most serious pressure in the freshman class."

President Morris explained the registrar's office had ceased its acceptance of freshmen and transfer student applications on July 13, pending study of the situation by the university council and the university board of trustees. The university council, he said, felt that the university could take emergency measures for a limited time in order to provide a higher education opportunity equally to the people of the state of Illinois and at the same time preserve the present high quality of the educational experience.

The council, Morris said, then recommended that the university "make available within reasonable every resource at its disposal to accommodate, on an emergency

August Showers Stall But Fail to Halt SW Swim Meet at Paddlers

BEDRAGGLED SWIMMERS sit huddled on bleachers set up at the Paddlers Pool for the Southwestern Illinois Swimming Association fourth annual championship meet held during a rainy Friday evening and Saturday. The competition was interrupted several times Saturday during the morning and

during evening hours by thundershowers. A large tent was set up by the Paddlers staff to protect the swimmers from the elements, but it was anticipated it would be a hot, August sun. The sun did shine for a while late Saturday morning and in the afternoon.

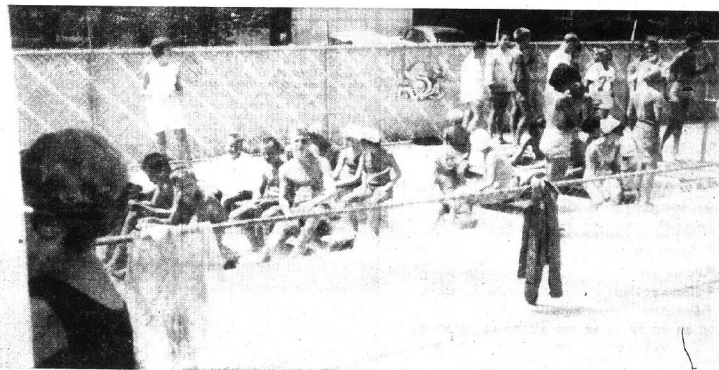

JACKKNIFE DIVE by Gayle Thompson of Paddlers during Friday night's conference competition at Paddlers Pool here. The young diver was caught at the height of her dive by a Press-Record photographer.

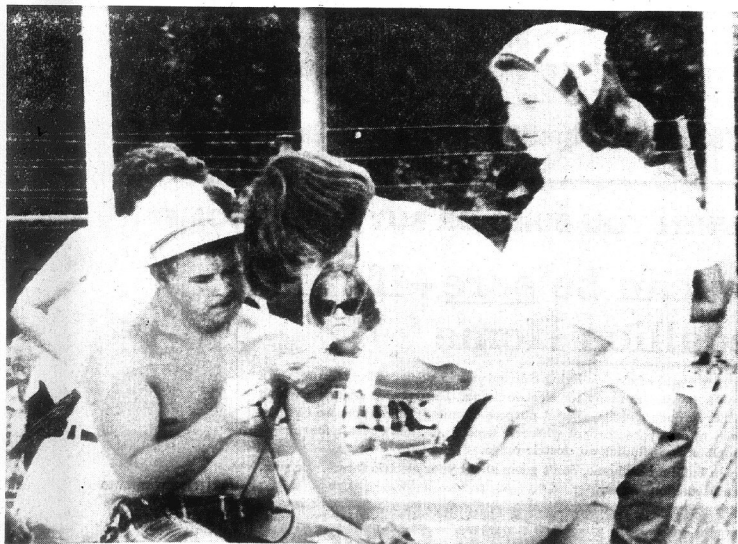

WALKIE-TALKIE COMMUNICATIONS were used to call resting swimmers to compete in individual and team events during the day. The rest area, provided with protection of

a large tent, was a short distance away from the Paddlers Pool. Operating the walkie-talkie is Randy Thompson, Paddlers lifeguard.

ON CALL IN THE BULPEN are swimmers ready to compete in the championship meet. The wading pool area was drained and equipped with benches for bullpen purposes.

This photo was taken during one of the sunny periods of the day.

COMPARING NOTES OF TIMES clocked in the day's swim events are Tom Puhse of Town & Country team and

Pat Toundas and Kathy Schmidt of Paddlers.

LONG WAITS are a part of swim team competition, but the contestants usually fill the gap by reading, playing cards or just chatting. The Paddlers provided a rest and

wait area under a large tent set up just a short distance from the pool with a refreshment stand nearby.
